## About Kathleen

I'm Kathleen Reeder and I am passionate about helping you create wildlife images that you will love. In our hurried urban lives, we seek out opportunities to feel connected to wildlife. We want to be inspired and excited by the innocence, purity and courage of wildlife. And to make photographs that share this beauty with family and friends. Creative juices are flowing, but moments are fleeting and camera settings are complicated! And there's limited available time! That's where I come in.

Trained as a project manager and corporate trainer, but always inspired by wildlife and photography, I am constantly thinking about photography workshops that are responsive to what wildlife you want to see, destinations you want to visit and curriculum content that makes you successful at capturing those creative moments with your camera. Whether you're looking for an exclusive photo opportunity, a particular location experience or one-on-one guidance, I know you'll find the right wildlife photography workshop, destination or training opportunity here.

I have led over 50 photography workshops in the United States, Botswana and South Africa with over 500 satisfied customers. My work has appeared on television, in magazines, on internet sites and other publications including NBC's Today Show and National Geographic. I frequently speak about my wildlife photography techniques to photo clubs and shares tips in my monthly newsletter. I provide detailed instructions on how to photograph wildlife in my book *Capturing the Moment, The Art & Science of Photographing Wild Animals*, available on Amazon.com and Apple iTunes.
