WILDLIFE PHOTOGRAPHY

Canada Snowy Owls Photo Workshop

January 16-21, 2022

Join professional wildlife photographers/instructors Kathleen Reeder and Marc Latremouille for an incredible 6 night/5-day photo workshop near Ottawa, Canada to photograph snowy owls. We are excited to offer you the opportunity to get close and personal with these magnificent owls. There is EXCLUSIVE LAND ACCESS ON PRIVATE PROPERTY, which means it's only us and the owls, no other photographers permitted. We will be photographing in various winter conditions: It is not uncommon to be out in blizzard like conditions, heavy and light snow, cloudy, foggy or sunny days. This variety of weather, landscape and lighting conditions, in addition to the in-depth knowledge of the owls, will provide you with the opportunity to create a diverse, creative and professional portfolio of this species. Mother nature will dictate the weather including the amount of snow. Register at www.KathleenReeder.com.

A portion of the proceeds are going to support the Children's Hospital of Eastern Ontario.

WHO SHOULD ATTEND: Intermediate Amateurs, Advanced Amateurs and Professional Photographers

WHAT YOU SHOULD KNOW: You need to be experienced with your camera to make suggested setting changes in the field without hands-on assistance and comprehend the rationale behind the recommended settings (including exposure mode, f-stop, shutter speed, ISO, focus mode, white balance, assessing histogram and highlight information, and making corresponding exposure compensation changes). This is not a workshop to learn how to use your camera.

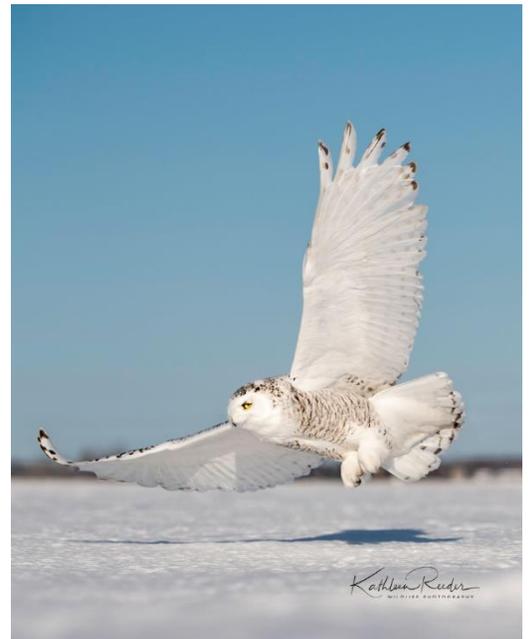

PHYSICAL REQUIREMENTS: Participants must be in good above average health and able to walk on and through snow covered fields with camera/lens. You must be able to carry your gear without assistance. There will be no exceptions to these requirements.

Participants will be required to sign the Kathleen Reeder Wildlife Photography Risk Waiver.

Workshop Cost

\$3,495 US Dollars

- \$1,000 nonrefundable deposit required upon registration; Balance due 90 days in advance of the workshop

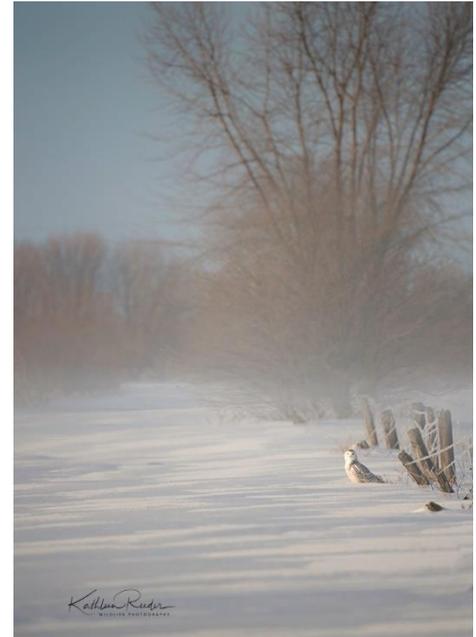

KATHLEEN REEDER

WILDLIFE PHOTOGRAPHY

Workshop Highlights

1. An informative online webinar presentation that covers wildlife photography composition tips, camera settings, recommended gear including cold weather clothing, and an illustrative slideshow of snowy owl photos taken by Kathleen and Marc to prepare you to maximize your camera's potential while shooting.
2. 5 full days of shooting, providing the ideal amount of time to fine tune your skills, see many owls in different settings and come away with superb images.
3. Migration is full of surprises. Great Grey owls, Northern Hawk owls, Boreal owls and other northern species have been known to winter in this area. Every year the adventure is different. We will adapt to optimize photographic opportunities.
4. Group size is limited to 5 participants so you'll have plenty of time with Kathleen and Marc to ask questions and get coaching specific to your individual photographic needs.
5. Marc is an Ottawa resident and has expert knowledge of the owls and their behavior.
6. Photo critiques of photos captured during the workshop on request.

Includes

- Pre-trip online photography instruction webinar and handout
- 6 nights single-supplement lodging at the B&B located on the private property. Plan to arrive in Ottawa on Jan 16, 2022 and depart on Jan 22, 2022.
- Transportation during the workshop
- Full breakfast every morning

Excludes

- Airfare to Ottawa, Canada
- Lunches and dinners, the B&B has a full kitchen
- Transportation between the airport and B&B
- Trip Insurance

Kathleen Reeder has led over 140 wildlife photography workshops in the United States, Canada, Botswana and South Africa with over 1,800 satisfied customers. Her work has appeared on television, in magazines, on internet sites and other publications including NBC's Today Show and National Geographic. She frequently speaks about wildlife photography techniques to photo clubs and shares tips in her monthly newsletter. She provides instructions on how to photograph wildlife in her 6 published books. She has one of the top wildlife photography blogs on the web and is a Nikon Professional Services member.
