

# KATHLEEN REEDER

WILDLIFE PHOTOGRAPHY

## North American Black Bears Photo Workshop June 11-13, 2022

Minnesota is the most northern state outside of Alaska, and has 90,000 miles of shoreline, more than California, Florida and Hawaii combined. There are an estimated 12,000-15,000 black bears in Minnesota. Photographing the North American Black Bear is the purpose of this 3-day photo workshop. Emphasis will be on helping you to capture incredible photographs of black bears of all sizes and ages in their natural environment, and giving you as much time as possible with the bears. This workshop provides an amazing in-field photographic experience. Participants must 18+ years old to attend the workshop. Register at <http://kathleenreeder.com>.

The Vince Shute Wildlife Sanctuary is 500+ acres of North Woods habitat in Minnesota, ideal for black bears and other wildlife. It is located about two hours northwest of Duluth. Vince Shute habituated generations of bears frequenting the Sanctuary unintentionally, as he tried to find a way to peacefully coexist with his forest neighbors. Vince fed the bear for more than 25 years. The feeding continues today as a means of preserving the extraordinary opportunities this unique situation provides. It allows the American Bear Association (ABA) to educate the visiting public about the natural history of the American black bear and all-natural resources. In addition, it allows the Association to offer you the chance to photograph this normally shy and reclusive animal.

### Highlights

- An informative online webinar presentation in advance of the workshop that covers wildlife photography composition tips, camera settings and recommended gear. It will also include an illustrative slideshow of photos with camera settings taken by Kathleen at the Sanctuary to prepare you to maximize your camera's potential while shooting.
- 3 full-days access to photograph black bears and other wildlife on ground level, not available to the public. The most common lens focal length is 100-400 mm.
- Workshop size is limited to 8 participants, so you'll have plenty of one-on-one time with Kathleen to ask questions and get coaching specific to your individual photographic needs
- Optional mid-day visit to the North American Bear Center and the International Wolf Center in Ely, Minnesota

## **Includes**

- Before the workshop:
  - An online recorded webinar prior to the workshop that covers wildlife photography composition tips, camera settings and recommended gear to prepare you. You will have access to both the recording and the webinar materials. The webinar also includes sharing a sample of your portfolio with the group.
  - Detailed handout of what to bring, the itinerary, what to expect and more
  - ABA introductory session on bear safety, bear behavior, history and mission of the organization, black bear natural history
- During the workshop:
  - 3 full days access to the Sanctuary ground level property, as well as the viewing deck; includes all Sanctuary fees and water throughout the days. You will see an average of 30+ bears on the property each day.
  - Group and one-on-one guidance on location before each photo session to ensure you get the most out of your camera, including optimal shutter speed, aperture, ISO and exposure compensation settings
  - Inclement weather options to visit the North American Bear Center and the International Wolf Center in Ely, Minnesota
- After the workshop
  - Online webinar for sharing pictures and discussing post processing
  - Group gallery for sharing people photos

## **Excludes**

- Airfare - Recommend flying into Duluth, MN
- Lodging - Recommend Oveson's Pelican Lake Resort & Inn in Orr, MN (218-757-3613)
- Ground transportation
- Meals

## **Workshop Price**

**\$1849**

Terms - \$750 non-refundable/non-transferrable deposit with balance due 90 days prior

## **About Kathleen**

Kathleen is the full-time owner of Kathleen Reeder Wildlife Photography. Her goal is to give you the best wildlife photographic workshop experience possible through excellent instruction, personal guidance and great wildlife photo opportunities.

She leads photography workshops in the United States (Arizona, Alaska, Wyoming, Montana and Minnesota), Canada, South Africa and Botswana. She frequently speaks about her wildlife photography techniques to photo clubs and provides instruction in her books, e-Training and thru private instruction. She is a Certified SmugMug Customizer, creating custom photo websites for photographers - a great way to share and sell your photographs.

Her business has received Trip Advisor's prestigious Traveler's Choice Award (previously called Certificate of Excellence) three years in a row with a 5 out of 5-STAR RATING.
